

junxion@onida

To get to us!

From Jozi, take the eastern bypass – that is the road Polokwane.

Take the Lynnwood Road offramp and turn right at the robot.

Go over the highway and at the first robot turn left into Meiring Naudé Road – on your way to the new Department of Science and Technology campus and the CSIR (this is on your right).

At the robot at the T-junction the Botanic Garden lies before you – turn right into Cussonia Avenue.

You will pass townhouses, a big church and houses until you get to Onida Avenue - all of this on your left hand side.

On the corner of Cussonia and Onida Avenue are two domed houses – here you turn left (you can't go right!).

We are at the second entrance – a panhandle – with a black security gate, number 32.

From Pretoria, go on the N 4 Witbank highway via Schoeman Street

At exit 3 - Watermeyer, Lynburn and Mamelodi - go left to the robot.

In Watermeyer Street turn left at the first robot (just a few metres!)

Immediately turn right into Onida Avenue – second gate on your left – ring where it says Junxion.

See you!
